| Small | | up to 10.5cm | 2 | newborn plus |

How to measure your infant's foot.

- **Ensure you do not scale the page when printing.**
- Place your child's heel on the baseline below.
- Measure to the top of the longest toe.
- If the longest toe is past the line of a size; we suggest that you choose the next size.
- Do not allow too much room for growth as this may become a tripping hazard
- Whilst we have tried our best to make our sizing chart as accurate as possible, the sizing of our shoes may vary slightly between designs
